Vice President for Administration and Finance/CFO
Subject: ASI IRA Transition to State Announcement

Effective July 1, 2023, the fiscal administration portion of the Instructionally Related Activities (IRA) program will transition from Associated Students, Inc. (ASI) to the Division of Administration and Finance (AF). For fiscal year 2023/24, the committee oversight and awarding process will still be managed within ASI.

The fiscal administration is transitioning to management by AF to increase operational efficiency for both ASI and AF. I would like to extend my thanks to our partners in ASI for their historical leadership in managing these funds and their partnership in this transition.

Due to the broad impact and importance of the IRA program, the AF Fiscal Services team is working closely with Academic Affairs and Student Affairs, along with ASI, to seek the smoothest transition possible. It would be ideal to have no transition issues, but the reality is that we do expect there to be some minor challenges. We are committed to work with our campus partners to complete the transition successfully.

We anticipate this will benefit our faculty and staff who are instrumental in providing transformative experiences that contribute to student success and advance the mission of the university. Should you have any questions or concerns regarding this transition, we welcome your comments and feedback via email to: vpadmin@fullerton.edu.
